

01:29:26 Harden Hayempour: BREAKING UP

01:30:01 Louise McGuire: Seems to be fine this side. Please try leaving and re-entering the meeting as a starting point. Also check your audio settings, and your net.

01:30:20 Louise McGuire: Please send any technical issues directly to Louise McGuire. Thank you.

01:40:34 Ben Hamilton: Jai Guru Dev, and greetings to everyone. My quality here in Los Angeles is fabulous. ATT technicians have done a great job of restoration of connection. We love technology and science that are properly directed! My gratitude to all who help deliver this to each of us! JGD!

01:44:55 Angelika Krause: JGD Thank you!

01:45:08 Louise McGuire: Part 1 is here: <https://www.miu.edu/world-peace-2022>

01:46:24 leila gargouri: Hello everyone
JGD
Leïla de Tunisie

01:47:36 Judy White: However, would it be possible to include some of your religion and culture points? That integration of world religions and cultures in togetherness is so much needed at thist time.

01:48:33 leila gargouri: Hello Paul
Greetings
Leïla de Tunisie

01:49:16 Paul / Moderator: Judy White: I'll mention your request to Raja Peter as soon as it feels appropriate. Paul / Moderator

01:51:33 David Carpenter: Humans are the most influential species on the planet, for better or worse.

01:53:25 Carole Capriotti-May: And yes -- Maharishi's talks and your contributions to the transcribing and teaching us of all these incredible aspirational thoughts and goals is indispensable 🙏

01:53:58 Christopher Schonwalder: Does the sap contain the intellegence or the DNA?

01:54:51 Anne Melfi: Sap is consciousness. Intelligence is consciousness. DNA is consciousness.

01:57:51 Ben Hamilton: To me, DNA is an expression of the order of the universe that is contained and fueled by the SAP. It is the Davata or process that unites object viewed and viewer, AS we know, DNA is itself changing and flexible.

01:58:21 Ulrike Selleck: I'm feeling such deep gratitude. Jai Guru Dev

01:58:22 Judy White: Dr. Nader is offering the world the paradigm that "Consciousness is all," and this paradigm, "the basis of all the differences" as Maharishi said in these points, contains all the organizing power needed to fulfill all of our desires. When we ATTEND to this truth it makes it less obscure for ourselves AS A SPECIES.

02:01:06 Sergii Saranchuk: 🙏 Jai Guru Dev
Appreciate much for this webinar

There is a quote that coincides with Maharishi knowledge : " in order

to defeat your enemy you should kill the angriness in your enemy, and thus you will win naturally.

Question according this statement : how is it could be possible to kill the aggression and hate in somebody if he doesn't want (or is not ready for it) to become friendly by himself? Weather is possible to change somebody without his will?

02:06:59 Sergii Saranchuk: How antidote to violence can be used on the stage of already appeared conflict of different points of view on how the life should be?

02:07:41 Annette Brellocks: I'm sorry but I have to leave.
Thanks

02:08:45 Anneliese Stein: Dear Raja Peter, Your lectures and all these online Meetings are always like being on an Island of Peace and Invincibility as well. Jai Guru Dev for your Engagement for World Peace.

02:11:22 Judy White: "I have to do it," said Maharishi, and on Guru Purnima he said any ONE of us can set up a group to care for the whole world. Being "healthy, wealthy, and wise," may we be the "security council of the world," and "prevent the birth of an enemy." Do we know a university that can put their students to be together to create a group? Prescriptions are there which can remedy any disorder." As we listen we enliven all this on the level of intellect for our species, a very practical tool for everything "to be fulfilled" for all to "enjoy the right to enjoy."

02:12:18 Louise McGuire: Parliament of World Peace: Trade, Commerce and Communication, March 1 2006 (60 min)

02:22:31 Ben Hamilton: I guess I spoke too soon about stable 1G connectivity as I am now experiencing very slow performance on my end. I will have to review this lesson.

02:27:03 jane ryals: @judywhite: sitting here on the Brahmasthan of America... come join our small group here...

02:43:14 Ulrike Selleck: Commerce, Trade, and Communication are most effective from the level of Unity, and Simplicity, where all limitations are transcended.

02:43:52 James. B Turner: I feel so grateful to be on this course.
Thank you Rajah Peter

02:44:19 James. B Turner: Maharishi reciting the Richo Akshare Verse is worth the whole course fee!

02:44:23 Janet: Living as simplicity and truthfulness is living the nature of pure consciousness and is the basis of all interaction for every level of consciousness.

02:44:25 Kestutis Adamonis: Simplicity

02:44:33 Brenda Neer: Yes, thank you for this course, Raja Dr.

Peter.

02:44:36 Florence Bhoose-Lafon: With Transcendental Consciousness, an impulse here is an impulse everywhere

02:44:43 wayne foster: All the laws of nature are contained in the dynamism of the collapsing of infinity to the point through the eight somersaults.

When two communicating together come to a point of agreement it is the unity element. The unity element, the coming together of differences, is the fulfillment of trade, commerce and communication.

02:44:47 Judy Flynn: Unity is a circle

02:44:48 Carole Capriotti-May: The "pathless path"

02:44:50 Kim Derby: The most important value of learning is Unity Consciousness.

02:44:55 Antonin Mireault-Plante: Agreeing is many made one in a point. The form of agreeing is Brahm.

02:45:08 Mark Goodrich: Human being is a cosmic computer

02:45:13 Mary Ellen Araas-Wright: One word expresses the nature of these three fields (Commerce, Trade and Communication) ... UNITY.

02:45:13 Alena Citterbergova: Unity, Simplicity is important for achieving goal.

02:45:17 Terry Laird: Communication is successful when two differing viewpoint unite at a common point. In any transaction simplicity is key not complicatedness.

02:45:17 Sharon Long: Simple means truth and truthfulness is the basis of all fields including Trade, Commerce and Communication.

02:45:20 Darlyne Engelman: Unity means coming together of differences. Unity is prominent. Any field of communication...when one and the two don't remain two then the communication is realized.

02:45:21 Susi Halley: Two become one in any successful transaction. UC is living this reality.

02:45:23 Amy Heebner: Truthfulness is the basis of success in trade, commerce and communication.

02:45:30 Ben Hamilton: In the simplest form the collapse from infinity to the point is verification and validation of Transcendental Consciousness.

02:45:40 Scott Finlayson: It is not logic, but simplicity that's best. Complexity does not work as well.

02:45:48 Maggie Vancik: The fulfillment of communication occurs when the two find the Yes and land on this one point, a point of unity.

02:45:49 Regina Stehle: In unity consciousness lies the fulfillment of trade, commerce and communication. All training has to go to this goal.

02:45:59 Alena Citterbergova: On one verse Richo Akshare all knowledge is contained.

02:46:06 Lisa Moseley: Communication commerce and trade exist on a superfluid level of unity consciousness—where the Self of everything is perceived at all times.

02:46:07 Suzanne Vesely: Training the people in Technology, Commerce and Communication is all right—but the essential training is in Unity

Consciousness. The characteristic of Unity Consciousness is that an impulse here is an impulse everywhere.

02:46:16 Catherine Berude: The success of all coming-togetherness (such as trade, commerce and communication) is on the basis of actual unity consciousness. Not the intellectual, or the spoken words unless they come straight from unity and truth, but the actual unity consciousness, where an impulse anywhere is an impulse everywhere, and the deal is done before it begins.

02:46:19 Jennifer Mills: As we evolve to higher states of consciousness, the universe will react to our bliss and peace will pervade with accordance to our self referral.

02:46:26 Patricia Nelson: She/he who does not know Veda, what can verses do for them ? Access Transcendent.

02:46:28 Cathy V Mascoll: Greetings Everyone ! Thank you Raja Peter li. This is so very enlightening / informative in so many different aspects. Namaste Jai Gur Dev.

02:46:34 Kim Derby: Unity = Circle Jai Guru Dev

02:46:38 Sharon Long: It's the nature of infinity to have the dynamism of its collapse to its point.

02:46:40 Diane Wetherill: There is nothing as profound as hearing Maharishi talking from such a deeply simple level of Unity. Wow! This has really brought me back to deep peace. I was using Worry Free aroma today to help and this talk sealed the deal. 🥰🙏 Diane Wetherill from Philadelphia Pa

02:46:41 Anne Melfi: As a copywriter and scholar, I have learned the truth of what Maharishi said: that it is not in the logic and references to this theory or that or in complications that the communication and trade is a success; rather, it is in simplicity, truthfulness, just showing that this is what the object is, and, most importantly, connectedness between the buyer and seller of the idea or object--unity.

02:46:43 Alena Citterbergova: Infinity, when though infinity, it collapses to the point.

02:46:44 sermet kabasakal: Transcendence is the basis and essence of everything such as trade, commerce and communication.

02:46:54 Annie Flint: With the practice of TM the physiology becomes habituated to function in that style where the total Natural Law in sequence collapses from its infinite value to its point value.

02:47:04 judy white: The characteristic of UC is an impulse here is an impulse everywhere, the goal is there in the beginning point. THIS SOUNDS LIKE WHY OUR COURSE IS VALUABLE. An impulse from the

unity of this group of necessity must bless our world. Jai Guru Dev

02:47:16 David Jaquish: In Unity consciousness, the goal or end point is there in the beginning of knowledge and action. An impulse in Unity is an impulse everywhere.

02:47:20 Gottfried Vollmer: In commerce the underlying unity is more important than the individual interests, unity makes every deal successful, both sides feel emotional uplifted and satisfied

02:47:23 Anita Donnelly: Frictionless flow the end goal is there in the beginning simple, true and uncomplicated

02:47:23 Carole Capriotti-May: Agreeing is HUGE! I continue to link what I have seen of the pioneer physicist, David Bohm, to these words especially about infinity and the "collapsing to a point and then repeating" etc. Your way, Raja Peter, of sharing and teaching us is soooooo good!!

02:47:24 Alena Citterbergova: In collapse there are 8 somersaults, from A to I etc.

02:47:25 Marcia Lewis: What he says about taking up this "duty" to create universities and colleges and schools to honor the light within all of us—the light of God to create universal peace, not "suicidal" war that sacrifices our youth in the world!

02:47:29 Hannelore and Reinhart Schettler: Characteristics of Unity Consciousness is: one impulse here is an impulse everywhere.

02:47:33 Catherine Berude: In unity consciousness, unity is prominent. Diversity exists, there are two traders, but they are one in fact, and in unity consciousness, known as such.

02:47:38 Ronald Stechert: Once again, Maharishi takes us by the hand and leads to the Infinite, while delving into the topic at hand. So simply and clearly, and logically he leads us from infinity to the point of infinity,,by 8 circles, 8 steps of progression, which we can experience with TM and the Sidhi program.

02:48:01 Alena Citterbergova: Natural Law is Will of God.

02:48:03 Stephen Weber: Most essential point of learning is Unity Consciousness

02:48:07 Ron Jordens: "A' infinity collapsing to a point is the eternal characteristic quality of self referral transcendental consciousness

02:48:10 Terry Laird: our systems of communication are grand and impressive but better yet is communication at will.

02:48:44 lisa ashelman: All transactions come to one point, which is the collapse of infinity to a point of agreement, unity, all the laws of that transacting are transcended, in para.

02:49:10 Claudia Magill: AK is the whole reality of trade, commerce and communication. I choose this because I wish to understand it better.

02:49:19 Rosemarie Komossa: trade, commerce, communication: the most important value of learning in these three fields >>> a simple, perfect and pathless path to fulfill all areas (the infinite A to collapse AGNI etc.) —> the supreme value of all three aspects is in transcendental consciousness = unity consciousness (the end is the beginning > circle)

02:49:40 Catherine Berude: is 'communication at will' telepathy?

02:54:58 Night Kiconco: Trade, commerce, and communication, all these are different aspects of life. All these together have to be lived in perfect order, so that law and order is never out of one's basic reality. I love this thank you.

02:55:20 Ben Hamilton: I worked in this area for US Dept. of Commerce. 17 years. Efficient trade based on earned trust, commerce based on MOU, and International Law. Food.

02:57:32 Susi Halley: I wonder if the physics chart that was posted in course materials could be re-posted with higher resolution? It would be wonderful to be able to read the text. Thank you!
