

00:26:15 Michael Soos: If all the nice presently playing GAV music in the universe were laid end to end, they would reach to infinity to the power of googolplex.

00:27:46 Michael Soos: Hello from Vata time Australia 2am Monday

00:30:33 Jane Ryals: Is a published list of certified vastu homes available? ...looking for out-of-state vastu

00:35:20 Michael Soos: Q – Can one install a huge water tank under a MSVA house, say under or over a basement area (ie under the plinth),, or does any such water tank have to be installed underground (my choice to increase space for gardens etc on top and or space for the vastu fence) to the North or East of the building plinth boundaries? Ta. Michael

00:37:25 Umesh Khetan: I have the following questions

- 1) Can you please suggest colours to be used in Maharishi Vastu homes??
- 2) Are the Vastu principles same in Northern & Southern hemispheres??
- 3) Please suggest plantations as per Maharishi Vastu
- 4) Please suggest placement of toilets in Maharishi Vastu homes
- 5) Is there any specific dimensions for the Kalash on top of the Maharishi Vastu home??
- 6) Should the walls be on the grid lines of Vastu purusha mandala??
- 7) Are the Maharishi Vastu homes designed based on Nakshatras of family members (Aayadi calculations)

Thanks & Regards

Umesh

00:37:47 Prasanna Jena: What is the impact of materials on the quality of the vast house ?

00:38:00 Prasanna Jena: For e.g. wood versus concrete blocks ?

00:39:50 Edina Fredell: What if the building site less than ideal – that is, hills to the east and a natural downward slope to the west AND there is not going to be another home site purchased. Is there any reason NOT to still pursue Maharishi Vastu architecture?

00:39:58 Prasanna Jena: Also many states in USA require the vastu architects/designers to be certified in the state where the homes are being built. How does the maharishi vastu organization address that?

00:43:15 Umesh Khetan: Can I visit the site in Pune, India?

00:48:19 Ragnhild Boes: I live in an apartment building with a north and a south entrance. I always use the northe entrance, but those who have a car park it in the street to the south and use that

entrance. The entrance to my apartment is from the east. Is this
reasonably OK from a Vastu point?

00:50:00 Michael Soos: Which are the proper sectors under the
house? N, E etc

00:51:42 Michael Soos: ...for the large under-house cistern.
Ta

00:53:04 Michael Soos: clientservices@maharishivastu.org

00:53:45 Prasanna Jena: For people who are new to the home
construction process, is there any resource to understand the entire
process and milestones involved e.g. design, permits ./approval,
finding builders etc

00:54:59 Cassy West: Regarding healthy materials, what is
your opinion on PEX (plastic) tubing for residential plumbing...I'm a
LEED Green Associate and I am researching about the dangers of the
chemicals that can leach out of the plastic and into drinking water. I
have researched and there is a new alternative called HyperPure PE-RT
tubing. Do you know it, use it or recommend it for a Vastu Home?

00:55:14 Jane Ryals: Please ask Zillow to add 'vastu' as a
search filter on their app... owner remains private

00:55:18 susan lauer: to inquire to the international
office: vedicarchitecture@maharishi.net

01:03:30 Michael Soos: Q - What are the advantages and
disadvantages of having a basement under either the whole house area
or partial house area? Ta. M

01:17:17 Umesh Khetan: My elder son is an architect since
last 3 years. My younger son is in 3rd year architecture. I wish they
both become consultants of Maharishi Vastu architecture. Please guide
the way forward. Thanks & Regards

01:17:50 Prasanna Jena: In many cases there is already a fence
in place with neighbors...how does that work out with then inserting a
vastu fence ?

01:21:32 Umesh Khetan: Thank you so much

01:22:18 Andre Ouellette: As we currently live in non
Vastu, Jon mentioned that there are furniture placement principles
along with others that we are recommended to follow. Where is this
information located and will you please make it available to us?

01:25:14 Michael Soos: Many thanks Jon and Susan. M 😊

01:27:15 Cassy West: Jon, Here is a link to learn more
about HyperPure PE-RT tubing. [https://www.buildinggreen.com/product-
review/pex-pipe-without-cross-linking-chemicals](https://www.buildinggreen.com/product-review/pex-pipe-without-cross-linking-chemicals)

01:27:47 Cassy West: Happy Earth Day Everyone!

01:29:55 Carolina Dear: Thank u

01:30:07 Cassy West: Thank you!

01:30:13 Edina Fredell: Thank you for this Q&A! Jai Guru Dev.

01:30:31 Michael Soos: Q - what are the concerns, if any,
with LED lighting and what is ideal lighting types?

01:30:54 Umesh Khetan: Thank you Sir

01:32:28 Michael Soos: Thanks Jon and Susan. M
