

00:07:07 Ruslan Saitov: Jai Guru Dev 🙏
00:29:32 Anne Melfi: sound is faint
00:31:27 Andrea Cassidy: Yes I'm new most are from the circle
of chi group
00:31:28 Appelusa McGlynn: 1
00:31:33 Andrea Cassidy: 3
00:31:36 L V: 1
00:32:01 Aaron Riep: 2 webinars. Enjoyed the English
village one
00:33:15 MIU: Here is the course webpage. [https://
ce.miu.edu/introduction-to-maharishi-vedic-architecture/](https://ce.miu.edu/introduction-to-maharishi-vedic-architecture/)
00:33:31 Teresa Commandeur: no
00:34:54 Christine Gross: Is there a website link you
can put in chat?
00:35:26 Jennifer Grace: Please update us on the Vastu
community project in MA.
00:35:27 MIU: <https://vastudeveloper.com>
00:37:28 Appelusa McGlynn: Hello! I am an MIU grad 😊 I
have a question about direction of front door. I am building and know
that a south facing door isn't the first choice. But when a person is
entering a north facing door they are facing south. So there is where
I am confused on the direction of the door vs the person entering-
based on the research on which direction a person faces... maybe typing
is difficult for this question. I can clarify if so...
00:37:34 Prasanna Jena: Is there a comprehensive list of
developers across the US ?
00:38:29 Andrea Cassidy: Circle of Chi is looking to build in
Costa Rica, and Tennessee smoky mountains.
00:40:16 susan lauer: <https://www.vastudeveloper.com/>
00:44:27 Prasanna Jena: Thanks Susan. I am looking for
builders primarily but would be interested to know of any developers
in my area as well.
00:45:32 Aaron Riep: I'm a Licensed Builder in Michigan
00:47:13 Aaron Riep: I'm also a TM Meditator Looking to
work on Vastu projects.
00:47:22 Prasanna Jena: Reacted to "I'm also a TM Medita..."
with 👍
00:47:42 Andrea Cassidy: Not sure about where in Tennessee but
have located 177 acre in Costa Rica
00:48:04 Michael Soos: For an Atrium Chatussala house design,
where Eike has advised that it does not matter if any internal doors
that enter into the internal large central courtyard face south or
west, is it OK, on that basis, that one can have one or more swimming
pools in that internal courtyard, as long as they do not obscure the
brahmastan? Ta.
00:48:15 Andrea Cassidy: Our group is about 200 and growing
daily
00:50:40 MIU: info@maharishivastu.org
00:50:49 Andrea Cassidy: We have members world wide as well.

Yes will reach out thank you!

00:51:07 Bhabishya Neupane: I am a Civil Engineer from Nepal and have completed MSc in Building Construction Technology. I am interested to work with Mahaishi Vedic Architecture. Is there any possibility for work or training?

00:51:23 Aaron Riep: Thank You!

00:53:05 Michael Soos: OK, many thanks

00:53:37 Prasanna Jena: There are many other schools of vastu as well...is maharishi similar to those or very unique?

00:53:54 Michael Soos: Thanks for the invite to continue

offline via email. 😊

01:03:04 Michael Soos: Great answer Jon.

01:03:40 Prasanna Jena: What is the take of maharishi vastu about building a home in the close proximity of commercial areas?

01:04:23 Christine Ouellette: What are the qualities of water bodies that might make it inauspicious? Does it primarily have to do with the reflection of the sun's energy from a certain direction or are there additional energetic qualities of water that are taken into consideration?

01:05:07 Michael Soos: Do Maharishi Vastu designed buildings create coherence in collective consciousness in and of themselves, or do they need to have meditating residents inside them to provide that coherence?

01:07:02 susan lauer: link to survey for those who would like to live in a MVA community

01:07:07 susan lauer: <https://docs.google.com/forms/d/e/1FAIpQLSf5w3n42goIILKnDY788G2Q90PhBPrJoH2aZ-HBS840uDPNBQ/viewform>

01:07:22 Michael Soos: Reacted to "https://docs.google...."

with 👍

01:07:32 Peggy Kosior: If there is time here, it would be lovely if John would share his experience when the chapel building was taken down in Fairfield. That story/experience was so illustrative and inspiring of what a difference it makes how a building is built.

😊

01:07:45 Jennifer Grace: Thanks for the link Susan

01:08:21 Lisa Moseley: Thank you so much!

01:09:28 Prasanna Jena: Does maharishi vastu also take into account ancillary structures like gazebos, extended porch etc. ?

01:13:24 Prasanna Jena: Reacted to "Do Maharishi Vastu d..."

with 👍

01:15:03 Michael Soos: Many thanks. Great relief to know that.

01:15:06 Peggy Kosior: Thank you for sharing the story once again! 😊🙏

01:16:19 Michael Soos: So, in that case can we create World Peace by simply building 10,000 houses without the need for meditators to occupy them?

01:17:05 Michael Soos: ... 10,000 MVA houses.

01:18:04 Michael Soos: Acha!
01:18:06 Nancy Falk: Can living in a home constructed with natural materials, and a constant endeavor to purify the inner surroundings, and a faithful practice of TM overcome or ameliorate negative effects of a South facing house? Thank you for all of your information!
01:18:25 Michael Soos: Many thanks Jon.
01:21:43 L V: John, it is refreshing to hear your candid answers, thank you 🙏
01:22:25 Peggy Kosior: I would like to see grocery stores built on vast principles.
01:22:36 Michael Soos: Christian Schweizer advised that a MVA house made of wood shrinks a year or so after being built. Would this affect the Vastu efficacy of the building with respect to ceiling to floor measurements etc or would one need to take that into account in the initial design – ie to increase the floor the ceiling measurement to estimate the shrinkage?
01:23:41 Prasanna Jena: Reacted to "Christian Schweizer ..." with 👍
01:23:53 Christine Gross: Vastu Communities is very interesting, ---there is a town in Canada that is totally off compass, the town' orientation is not NSEW, but shifted to be in the middle of those, which makes it difficult to even build there! And living in a house, moving all the furniture, like bed with head in the east, so all furniture is on an angle.
01:24:53 Michael Soos: Thanks Jon.
01:25:42 Christine Gross: yes all the houses have to face the road
01:26:16 Christine Gross: And interesting a high level of illness...
01:28:26 Christine Gross: Thank you for your input!
01:30:22 Michael Soos: Vedic Science always seems to have a fix.
01:30:34 Jennifer Grace: Thank you both so much!
01:30:52 Michael Soos: Many thanks Jon and Susan – great presentation and knowledge! Jai Guru Dev. M
01:31:06 L V: Thank you both so much!
01:31:23 Kumaran Nair: Thank you
01:31:25 Prasanna Jena: JGD!
01:31:35 Andrea Cassidy: Thank you
